

One of the top concerns of FLYschool is the flight safety of our students, so we do not trust the maintenance of our aircraft to third parties and have own maintenance staff (authorization of the State Aviation Safety Agency M.F.020).

Our service center is located at the aerodrome of Casarrubios del Monte, just 10 minutes flying time from base Cuatro Vientos airport facilities 1,000 m<sup>2</sup> approximately hangar and platform, which enables us to perform maintenance to the fleet even the peak traffic times.

Maintenance work online reviews of 50, 100, 200 hours fuselage, engines or propellers are tasks that allow us to maintain optimal aircraft for flight.

All parts are mounted on aircraft are original and are purchased directly from the manufacturer, do not use the parallel market approved materials and in many cases send the undamaged parts USA for intensive review on the official service.
